## Important Notes:

1. The investment-linked assurance scheme (the “Scheme”) is an insurance policy issued by Chow Tai Fook Life Insurance Company Limited (“CTF Life”). Your investments are subject to the credit risk of CTF Life.
2. As part of your death benefit is linked to the performance of the Investment Choices you selected from time to time, your death benefit is subject to investment risks and market fluctuations. The death benefit payable may not be sufficient for your individual needs.
3. All premiums you pay towards the Scheme, and any investments made by CTF Life in the underlying funds corresponding to the investment choices you selected, will become and remain part of the assets of CTF Life. I.e., you are not investing in the underlying funds of the investment choices and you do not have any rights or ownership over any of those assets. Your recourse is against CTF Life only. The allocations of the units of investment choice(s) to your policy are notional and are solely for the purpose of determining the account value of your policy.
4. Your return on investments is calculated by CTF Life with reference to the performance of the underlying funds corresponding to the investment choices selected by you. The return of investments under the Scheme shall be subject to the charges of the Scheme and may be lower than the return of the corresponding SFC-authorized fund.
5. The investment choices available under the Scheme can have very different features and risk profiles. Some may be of high risk. Please read the offering documents of the underlying funds involved, which will be made available upon request or downloaded at our website: [www.ctflife.com.hk](http://www.ctflife.com.hk).
6. The underlying fund of certain investment choice(s) is classified as derivative fund, and its net derivative exposure may be more than 50% of the underlying fund’s net asset value. Please note that derivative fund would be indicated as “Derivative fund\*” in the column of Supplementary Information under section “List of Investment Choices made available under Cheers Plus, Legend, Oscar, Legend 2, “We Shine”, Cheers Investment Life Insurance Plan, Columbus, “Wealth Accumulator” Plus, Wealth Partner and “Wealth Smart” Premier”. This type of investment choice is only suitable for clients who understand the complicated structure of derivative product and associated risks, and you may incur significant loss of principal if investing in this type of investment choice. Please read the offering documents of the underlying funds involved, which will be made available upon request or can be downloaded at our website: [www.ctflife.com.hk](http://www.ctflife.com.hk). You are strongly advised to exercise caution in relation to such investment choice.
7. The Scheme is designed to be held for a long term period. Early termination, surrender and partial withdrawal of the policy, suspension of or reduction in premium (if applicable) may result in a significant loss of investment and premiums paid, and will affect the death benefit and bonuses (if applicable). Poor performance of underlying funds may further magnify your investment losses, while all charges are still deductible.
8. With no premium contribution during the period of contribution interruption / premium holiday (if applicable), the value of the Scheme may be significantly reduced due to fees and charges, and additional premium for optional rider(s) (if any and applicable), which are still deductible during the period of contribution interruption / premium holiday, and your entitlement to bonuses may also be affected.
9. Investment involves risk. You should not purchase the Scheme unless you understand it and your consultant has explained to you how it is suitable for you. The final decision is yours.

## Important Notes: (Continue)

10. The investment choice ended with “(Dis)” in its name (the “Investment Choice (Cash Distribution)”) linked to the share class of the corresponding underlying fund which aims to distribute cash dividend on a regular basis. Investment Choice (Cash Distribution) are made available to Legend and Legend 2. If you choose to invest in the Investment Choice(s) (Cash Distribution), you will receive cash dividend if CTF Life receives such dividend from the underlying fund(s) of the Investment Choice(s) (Cash Distribution). Please note:

- (i) There is no guarantee that the underlying fund of an Investment Choice (Cash Distribution) will distribute cash dividend, distribute fixed amount of cash dividend or distribute cash dividend at a periodic frequency. The amount of cash dividend paid is in no way an indication, a forecast or a projection of cash dividends to be paid in the future.
- (ii) Underlying fund of Investment Choice (Cash Distribution) may at its discretion, according to their dividend policy, (a) pay cash dividend out of the capital of the underlying fund; or (b) pay cash dividend out of gross investment income while paying or charging all or part of the underlying fund's expenses and fees out of or to the capital of the underlying fund, resulting in an increase in distributable income for payment of cash dividend by the underlying fund and hence, the underlying funds may effectively pay cash dividend out of capital.
- (iii) Payment of cash dividend out of capital amounts to a return or withdrawal of part of the original investment or from any capital gains attributable to that original investment. Such payments of cash dividend will result in an immediate decrease in the net asset value per unit of the underlying funds, and may result in an immediate reduction of the unit price of the Investment Choice (Cash Distribution).
- (iv) In comparison to investment choice(s) that reinvest dividend, Investment Choice(s) (Cash Distribution) pay out cash dividend and hence, may reduce the account value of the policy. This may in turn (i) reduce the death benefit and surrender value payable, (ii) lead to the reduction of applicable bonuses, and (iii) lead to the policy termination when the account value is insufficient to cover the relevant policy charges. If the account value is reduced to zero or below, the policy will be terminated.
- (v) You should not select the Investment Choices (Cash Distribution) unless you understand them, and your consultant has explained to you how they are suitable to you.

## General Risk

You should note that the investment returns provided will be subject to various risk factors, including, without limitation, normal market and currency risks. Some or all of the risk factors may adversely affect the investment choice(s)' performance and their ability to achieve their investment objectives. There is no assurance that the investment choices will achieve their respective investment objectives. You should carefully consider the risk factors relating to investment in an investment choice in light of your own financial circumstances, knowledge, experience and other personal circumstances, and should seek independent professional advice if necessary.

Please refer to the offering documents of the relevant underlying funds for details of their investment objectives and risk factors.

1. Investment involves risks, and the value of your investments may go up as well as down. Investment returns are not guaranteed. Past performance is not indicative of future performance. Each investment choice is subject to market and interest rate fluctuations and to the risks inherent in all investments. Some investment choices offered under the Scheme may involve assets denominated in foreign currencies, and this may entail additional risks as the result of exchange rate fluctuations.
2. The return you will receive on an investment in fixed income instruments will depend on (i) interest rate returns and foreign currency exchange rates, both of which may fluctuate; and (ii) the credit standing of the issuers which cannot be guaranteed.
3. Transactions in derivatives may be used to meet its investment objectives. The use of such instruments, as well as techniques, may increase the volatility of an underlying fund's net asset value. Its degree of risk may therefore be greater than in the case with conventional securities.
4. The prospects for economic growth in a number of smaller and emerging markets may be considerable, and these markets may have the potential to provide greater returns on equity than mature markets. However, there are risks from political, economic, and market factors in smaller and emerging markets which may result in significant risks involved in investing in them, and may expose the underlying funds investing in these markets to significant losses.
5. Investment that focuses on certain industries can be significantly affected by events relating to those industries, such as international political and economic developments, taxation and government regulations. It is important to understand that underlying funds that are thematic or sectoral in nature may be more volatile than underlying funds that are diversified.
6. Higher yield investment generally incurs a greater degree of risk than lower yield investment, such as, but not limited to, credit risks, normal market and currency risks.
7. The Scheme is not suitable for all investors. You should understand the details of the Scheme and consider your investment objectives and other personal circumstances before you invest in it.
8. Certain investment choices are linked to underlying funds that may make dividend payments out of the underlying fund's income and / or capital. The payment of distributions out of capital represents a return or withdrawal of part of the amount investors originally invested and / or capital gains attributable to the original investment. Any distributions involving payment of distributions out of the underlying fund's capital may result in an immediate decrease in the net asset value per share and may reduce the capital available for the underlying fund for future investment and capital growth.

This Investment Guide aims to provide you with information about the investment choices that are available to you under the Scheme. The Scheme is classified as “Class C - linked long term business” plan under the Insurance Ordinance. It is offered by CTF Life, an insurance company authorized under the Insurance Ordinance in Hong Kong.

The Principal Brochure consists of this Investment Guide and the Product Guide. Please read the Investment Guide in conjunction with the Product Guide, Illustration Document and the Product Key Facts Statement before you apply for the Scheme. For details of the underlying funds, please refer to the relevant offering documents.

For more details about the Scheme and to obtain the relevant documents including offering documents, notices, announcements, financial reports and other documents of the underlying funds, please visit our website at [www.ctflife.com.hk](http://www.ctflife.com.hk). Should you require further information or service, please do not hesitate to contact your consultant or our customer service hotline at 2866 8898.

The offering document does not constitute as part of your contract. Please refer to the policy document for the terms and conditions.

## Investment Choices

The investment choices are offered by CTF Life under the Scheme. The investment choices are respectively linked to underlying funds. CTF Life will be investing the premium received from you into the underlying funds corresponding to the investment choices selected by you for CTF Life’s asset liability management.

## Dividends of Underlying Funds

Dividends may be (1) reinvested and allocated to your policy as additional notional units of the relevant investment choice equal to the amount of dividend distributed, or (2) distributed to the owners in cash if the Investment Choice (Cash Distribution) is selected.

If a dividend is declared for the underlying fund of an investment choice other than Investment Choice (Cash Distribution) while the policy is still in force, CTF Life will reinvest the dividend amount in the form of additional notional units into the investment choice. We will allocate such notional unit(s) within 12 business days upon the receipt of such dividend from the underlying fund by CTF Life. However, this allocation may be delayed due to any exceptional circumstances which is beyond the control of CTF Life as set out in the section of Exceptional Circumstances of the Investment Guide. If reinvestment is not feasible in the case of policy surrender, termination, switching-out, or other circumstances, we will pay the dividend to the owner by cheque or other means which will not affect your entitlement to the payment of dividend payout. The dividend amount reinvested will form part of the account value and may be subject to applicable fees and charges. Please refer to the offering documents of the underlying fund of your selected Investment Choice for further details of the dividend policy of the underlying fund.

For dividends declared in respect of the underlying fund of an Investment Choice (Cash Distribution), please refer to the section of Distribution Policy of Investment Choice (Cash Distribution).

## Distribution Policy of Investment Choice (Cash Distribution)

### Cash dividend

When an underlying fund of an Investment Choice (Cash Distribution) declares dividend on a date, we will record the number of notional units of the Investment Choice (Cash Distribution) the owner is entitled to in the policy on that date. This date is referred to as the record date ("Record Date"). Such Record Date shall be the same day as the day that the dividend is declared by the underlying fund corresponding to the Investment Choice (Cash Distribution).

The dividend amount (rounded to the nearest two decimal places) to be distributed for each Investment Choice (Cash Distribution) in a policy is determined as follows:

$$\begin{array}{c} \text{The number of notional units of the Investment Choice (Cash Distribution) held by the owner on} \\ \text{the Record Date} \\ \times \\ \text{The dividend amount per notional unit of the Investment Choice (Cash Distribution)} \end{array}$$

The dividend amount per notional unit of the Investment Choice (Cash Distribution) will be in the exact dividend amount per unit in the currency declared by the underlying fund of the Investment Choice (Cash Distribution). Any remaining balance of the dividend after rounding will be borne or absorbed by CTF Life.

### Entitlement to cash dividend

The owners holding notional units of the Investment Choice (Cash Distribution) on the Record Date are entitled to receive cash dividend given the dividend declared and becomes payable by the corresponding underlying fund and the policy is still in force on the Record Date. For the avoidance of doubt, any (1) cancellation of your policy during the cooling-off period, (2) termination of your policy or (3) cancellation of the relevant notional units of the Investment Choice (Cash Distribution) as a result of switching or partial withdrawal, subsequent to the Record Date, will not affect the entitlement to the cash dividend and the amount of cash dividend previously paid to you (if any) will not be clawed back from your policy.

### Frequency of distribution

The frequency of distribution of an Investment Choice (Cash Distribution) will be the same as the frequency of distribution of its underlying fund. Cash dividend of an Investment Choice (Cash Distribution) will be distributed to you after payment of dividend from its underlying fund is received by CTF Life.

### Payment of cash dividend

Early redemption charge does not apply to the cash dividend distributed from the Investment Choice(s) (Cash Distribution). If you hold notional units of an Investment Choice (Cash Distribution) on the Record Date and dividend is declared by its underlying fund, we will normally pay you the cash dividend you are entitled to within 12 business days upon receipt of the cash dividend from the underlying fund of the Investment Choice (Cash Distribution) by CTF Life. CTF Life may extend the payment period due to any exceptional circumstance which is beyond CTF Life's control, and payment will be carried out as soon as practicable after cessation of such event. No interest on the cash dividend will be paid to the owners by CTF Life in respect of the period between the Record Date and the date of payment.

Payment of cash dividend will be made in Hong Kong Dollars by autopay or other payment methods offered by CTF Life at the time of payment. For Legend 2, you may also elect to receive the dividends in the policy currency by filling a written request in our prescribed form subject to our approval. We will convert the cash dividend denominated in the currency of the Investment Choice(s) (Cash Distribution) into Hong Kong Dollars or US Dollars upon request and agreed by us for US Dollars policy at the prevailing exchange rate as determined by CTF Life from time to time in good faith and a commercially reasonable manner and it may be subject to foreign exchange risks in the process of currency conversion. There is no handling fee and charge imposed by CTF Life in respect of the dividend payment method or currency conversion. Any charges incurred in connection with currency conversion or payment of cash dividends by autopay or any payment method shall be borne by you and will be deducted from the proceeds of dividends.

CTF Life reserves the right to amend the distribution policy and the related administration arrangement of Investment Choice (Cash Distribution) subject to the prior regulatory approval and by giving not less than one month's prior written notice (or such shorter notice period in accordance with the relevant regulatory requirements) to the owners.

The amount of dividend paid by the Investment Choice (Cash Distribution) and the dividend composition information of the underlying fund for the last 12 months and will be made available upon request and on our website. Please refer to [www.ctflife.com.hk/cash-dividend-fund/en/](http://www.ctflife.com.hk/cash-dividend-fund/en/) for further information.

## Valuation of Investment Choices

We will calculate all the allocation (e.g. the allocation of premium) and cancellation of notional units (e.g. surrender) to / from the investment choice(s) at unit price.

All of the investment choices have no bid-offer spread. As there is no bid-offer spread, both the bid price and the offer price of an investment choice is equal to the unit price of the same investment choice.

The unit price of a unit of each investment choice on a valuation date will be the same as the offer price of the unit or share of that underlying fund on that valuation date and in the currency of that underlying fund.

A valuation date of an investment choice is equal to every working day. In the event of the occurrence of any exceptional circumstances, beyond CTF Life's reasonable control which renders it impracticable to carry out a transaction on a particular valuation date, we shall have the discretion to decide another applicable valuation date to determine unit price and / or the net asset value of an investment choice.

Underlying fund units are currently bought and sold on every working day subject to valuation policy of the underlying fund, and on a forward-pricing basis. For further details about the underlying funds and the manager of the underlying funds (including details of fees and charges, investment restrictions and borrowing power, dividends, valuations, unit price calculations and other features), please refer to the relevant offering documents of the underlying funds, which are made available by CTF Life.

## Exceptional Circumstances

CTF Life reserves the right to delay carrying out the valuation and the processing of requests to allocate, cancel or switch notional units of investment choice(s) for switching request or payment of surrender value, partial withdrawal amount, death proceeds (including suicide proceeds), maturity benefit or cash dividend distributed from the Investment Choice(s) (Cash Distribution) caused by exceptional circumstances beyond CTF Life's control. The exceptional circumstances include, without limitation, the closure of or suspension of dealings on a major stock exchange, unexpected government intervention in foreign exchange, and suspension of valuation of, or dealing in any underlying investments of an investment choice. No interest shall be paid by CTF Life in respect of any delays in payments due to such exceptional circumstances.

## List of Investment Choices made available under Cheers Plus, Legend, Oscar, Legend 2, “We Shine”, Cheers Investment Life Insurance Plan, Columbus, “Wealth Accumulator” Plus, Wealth Partner and “Wealth Smart” Premier.

You should read the offering documents of underlying funds, which are made available from CTF Life upon request for details of the underlying funds (including, without limitation, their investment objectives and policies, risk factors and charges).
